

Seungho Choi

Seoul, South Korea sh26choi1@gmail.com oh-gnues-iohc.github.io seungho-choi-062a75409 oh-gnues-iohc

Summary

PhD student in the Creative Vision and Multimedia Lab (CMLab) at Chung-Ang University, advised by Prof. Jihyong Oh. Research on multimodal learning and agents, with a focus on vision-language models, image restoration, and reasoning.

Education

PhD	Chung-Ang University , Artificial Intelligence	Seoul, South Korea
	- Creative Vision and Multimedia Lab (CMLab); Advisor: Prof. Jihyong Oh - Research: multimodal learning, vision-language models, image restoration	2026 – present
MS	Hannam University	Daejeon, South Korea

Publications

HanjaBridge: Resolving Semantic Ambiguity in Korean LLMs via Hanja-Augmented Pre-Training	2026
Seungho Choi, Sihyun Park, Minsang Kim, Chansol Park, Bongsu Kim ojs.aaai.org/index.php/AAAI/article/view/40294 (AAAI Conference on Artificial Intelligence (AAAI). Oral Presentation (top ~5% of submissions; 17.6% acceptance rate))	
FRAMER: Frequency-Aligned Self-Distillation with Adaptive Modulation Leveraging Diffusion Priors for Real-World Image Super-Resolution	2026
Seungho Choi, Jeahun Sung, Jihyong Oh cmlab-korea.github.io/FRAMER (IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR). Poster (25.42% acceptance rate))	
DiTTo: Scalable Order-aware All-in-One Image Restoration Agent	2026
Seungho Choi, Jihyong Oh cmlab-korea.github.io/DiTTo (Under review)	

Experience

CMLab, Chung-Ang University , Graduate Researcher	Seoul, South Korea
Research on multimodal learning and agentic systems for vision-language tasks and image restoration.	2026 – present

Honors and Awards

AAAI 2026 – Selected for Oral Presentation (top ~5% of all submissions)

Skills

Programming: Python, PyTorch, Git
Machine Learning: Hugging Face Transformers, PEFT/LoRA, distributed training (DDP), diffusion models
Research Areas: Multimodal Learning, Vision-Language Models, Image Restoration, LLMs, Agents

Languages

Languages: Korean (native), English (professional working proficiency)
